EDUCATION

INTEGRAL UNIVERSITY , LUCKNOW　　　　　　　　　　　　　　　　July 2018 - July 2021
Tech BCA　　　　　　　　　　　　　　　　　　　　　　　　　　　　　　　　Lucknow
Percentage: 81%

EXPERIENCE

OCPL TECH | Backend Developer　　　　　　　　　　　Delhi | Feb 2024 – July2024

Express Server Setup:
Use the Express framework to set up the server and handle HTTP requests.
Parse incoming JSON requests using Express middleware.
CRUD Operations:
Create: Define an API endpoint to create new leads by saving incoming lead data to the database.
Read: Define an API endpoint to fetch all leads from the database.
Update: Define an API endpoint to update lead data based on the lead ID.
Delete: Define an API endpoint to delete a lead based on the lead ID.
Error Handling:
Implement basic error handling to manage potential issues during database operations.

SKILLS

Programming Languages　　　HTML, CSS, JavaScript, Node js, Express js, MongoDB, Postman, Git, Firebase

PROJECTS / OPEN-SOURCE

HELLO STUDY CRM | Link　　　　JavaScript , Node js , Express js , MongoDB , Postman , Git , Firebase

Managing Students:
Enrollment: Manage the student enrollment process and ensure all required details are recorded.
Lead Management:
Lead Tracking: Record and monitor potential student leads. Leads include prospective students who have shown interest in enrolling.
Fee Management:
Fee Records: Maintain records of student fees, including the amount, date of payment, and outstanding balances.
API Endpoints: Create API endpoints to handle operations like adding new students, recording leads, updating lead statuses, and managing fee payments.
